Maybe even better than free.

Alternatively you can choose to share your download links on blogs, forums and social networking sites. filehosting provides an easy possibility for you to send large files to your friends. Keep your files private, or send your download links only to friends or family. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Unfortunately, we can't make that part free. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. You don't need any special software installed tobe able to download your files. Using file, you can circumvent those limits without paying to upgrade your team chat service. Just upload the file you want toshare with your friends and we send you a download link to your file. Our service is completely free for everyone. Simply upload your file and share the link.You can upload any type of file (movies, music, documents, images, zip files and more). Files transferred the old-fashioned way tend to pile up and be forgottenabout, eventually costing you money in data storage fees. You can give this download link to your friends by mail or instant messenger. So try our free andsimple filehosting service now. There are no restrictions on the number of times a file can be downloaded. It is also allowed to link to the download page fromwebsites and communities. No account or credit card is required to get started. You decide who you want to share your files with. We have no file size limit.When you use file, you avoid storing the file you're sending in your cloud storage or mail server. The cost of that data transfer is covered by your internetservice or the data plan on your phone. Any file in any format can be uploaded and downloaded for free. File is free to use with no gotchas and no hidden fees.Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone andour servers, then from our servers to your friends device. Files can be downloaded from any computer from our high speed servers. If only we could, we surelywould! On the other hand, using file can actually save you money.
